

Weeks 3 & 4 Work Summary

Chateaugay Lakes, NY

Summary

Chateaugay Lake Milfoil Removal Report 6/20/11 – 6/30/11

*Numbered areas referred to in report are indicated above

*Bags estimated to weigh approximately 25 pounds each

Week 3

Monday:

Morning and spent harvesting milfoil on shoreline in Sand Bar Bay right across from Camp Chateaugay, moving down the shoreline and across to small island in the back of the bay. Small isolated patches were found along this shoreline. A large patch was found starting at the back of the bay moving perpendicular to that island.

Tuesday:

Day spent finishing up patch found by the back island and moving south west to island with house on it. A large band of milfoil was found expanding past barge bay and into the channel.

Wednesday:

Day spent cleaning up band of milfoil found on side of house island closest to sand bar. The remainder of the day was spent harvesting milfoil in and around large matted area in front of island.

Thursday:

Day spent harvesting area in the narrows across from the two camps. Significant amount of milfoil found.

Bag Total: 345 bags

Estimated Weight: 8,625 lbs

Week 4

Monday:

All day Monday spent harvesting in area 2. Very large begs of single stem plants found consistently throughout the area.

Tuesday:

All of Tuesday spent harvesting area 2. More large begs of single stem plants found and removed. All major beds found in area 2 in the narrows cleared. Would recommend spot be re-hit to clear out remaining isolated patches.

Wednesday:

Spent Wednesday morning removing a dense bed discovered on shoreline across from the girl's camp. Patch was fairly small, but extremely thick. Began afternoon in area 3 starting at Camp Chateaugay moving north. Small patches found consistently throughout area, with the largest being located by the lily pad's by the long metal dock with the jet ski's on it. Curly leaf pond weed also found in this area. (3-6 plants)

Thursday:

Spent the morning clearing the patch found by the lily pads and moving north. Isolated patches found throughout area. Ending the day right after the girl's camp.

Bag Total: 441 bags

Estimated Weight: 11,025 lbs
